SUMMARY

Mobile developer who builds cross-platform apps in React Native and Flutter, and the TypeScript backends behind them. Shipped a carpooling app to 500+ active users and a Flutter booking app used by 15+ local businesses. Experienced with real-time and geolocation features, animation, and on-device data storage.

EXPERIENCE

Mobile Developer Intern

IzyDesk | Tangier, Morocco | 2025 | Flutter, Symfony, MySQL, REST API

- Built Resaly Pro, a salon management app now used by 15+ local businesses.
- Wrote the real-time booking flow in Flutter on top of a Symfony REST API.
- Tuned the Symfony workflows behind it, which raised team efficiency by 25%.

MOBILE PROJECTS

RideMate - Carpooling App (2026)

React Native, Expo, TypeScript, NestJS, Next.js

- Designed and built a carpooling platform for 500+ active users, with a React Native app and a Next.js web app.
- Built real-time geolocation matching that cut wait times by 30%, with 99.9% data consistency.
- Added maps and location, push notifications, secure token storage, multi-language support (i18next) and EAS builds.

Zephyr Mobile - Music Stats App

React Native, Expo Router, Reanimated, Skia, Victory Native, Go

- Built a dashboard of top artists, albums and tracks over different time ranges for a self-hosted music server.
- Made an animated, story-style Weekly Recap with Reanimated and Skia, plus shareable cards.
- Cached artwork from the user's own server and added a data saver mode for slow connections.
- Wrote the Go (Fiber) and TimescaleDB backend with JWT authentication.

HealthSphere - Workout Tracker

React Native, Expo Router, NativeWind, SQLite, Drizzle ORM, NestJS

- Built workout logging with list, add, detail and delete screens, form validation, type filters, dark mode and animations.
- Moved storage from AsyncStorage to SQLite with Drizzle ORM, with loading and error states on launch.
- Combined stack, tab and drawer navigation, and started a NestJS backend in Docker.

BACKEND PROJECTS

- **LMS API (2026):** NestJS, MongoDB and Docker backend for an e-learning platform, built for 10,000+ concurrent requests with sub-50ms responses and 40% less CI/CD overhead.
- **MoneyMind (2025):** Laravel budgeting app that uses Gemini AI to analyze spending, with 92% accuracy on personalized insights.

SKILLS

- **Mobile:** React Native, Expo (Router, EAS Build), Flutter, Reanimated, Skia, NativeWind, React Navigation, Redux
- **Languages:** TypeScript, JavaScript, Dart, Go, PHP
- **Backend and data:** Node.js, NestJS, Express, Laravel, Symfony, PostgreSQL, MongoDB, MySQL, SQLite, Drizzle, Prisma, Redis
- **Tools:** Git, Docker, Nginx, Linux
