KEY PROJECTS & CONTRIBUTIONS

RideMate — Sustainable Mobility Ecosystem

2026

Architected a full-stack carpooling solution serving **500+ active users** using **React Native** and **Next.js**. Engineered real-time geolocation matching that **reduced wait times by 30%** and ensured 99.9% data consistency.

TYPESCRIPT NESTJS REACT NATIVE NEXT.JS

LMS API — EdTech Backend Architecture

2026

Engineered a modular LMS backend handling **10,000+ concurrent requests**. Optimized sequential module progression to achieve **sub-50ms response times** and reduced CI/CD overhead by 40%.

NODE.JS NESTJS MONGODB DOCKER

MoneyMind — AI Financial SaaS

2025

Developed an intelligent budgeting assistant integrating **Gemini AI** for predictive expense analysis, achieving **92% accuracy** in personalized financial insights.

LARAVEL GEMINI AI TAILWIND CSS

PROFESSIONAL EXPERIENCE

Mobile Developer Intern

2025

IzyDesk • Tangier, Morocco

Developed **Resaly Pro**, a salon management solution adopted by **15+ local businesses**. Built real-time booking with Flutter and optimized Symfony workflows, resulting in a **25% increase** in efficiency.

FLUTTER SYMFONY MYSQL REST API

EDUCATION

YouCode Morocco (UM6P)

2024 — 2026

Advanced Full-Stack Development

PROFESSIONAL SUMMARY

Full-stack developer specializing in **TypeScript**, high-fidelity **React Native** apps, and scalable Node.js backends. Comfortable owning a product end-to-end — from real-time architecture and AI integration to shipping cross-platform mobile experiences. Focused on measurable outcomes over busywork.

TECHNICAL EXPERTISE

BACKEND

Node.js, NestJS, Express, Go, PHP, Laravel, PostgreSQL, MongoDB

FRONTEND & MOBILE

TypeScript, React, Next.js, React Native, Flutter, Tailwind CSS, Redux

INFRASTRUCTURE

Docker, Nginx, Redis, Prisma, SQLC, Git, Linux

CORE STRENGTHS

- Real-time & geolocation systems
- AI/ML feature integration
- Cross-platform mobile delivery
- High-throughput backend design
